NOTICE.
All persons in Lawrence county and vicinity who are indebted to the Singer Sewing Machine Company are requested to settle in full with our Special Agent, Mr. J. E. Roberts, when he calls on you. Or he can be seen about the 25th of each month at the Chattahoochee Hotel, Louisa, Ky.
The Singer Manufacturing Co., Cincinnati, O.

A large portion of the American people are wholly unaware of the deleterious effects incident to the use of common Soda, thereby producing disease and destroying health. The highest perfection of art has been attained in the manufacture of J. Monroe Taylor's Gold Medal Soda. Use one paper, and you will never have any other. It is a great way ahead of any other to use with cream tartar. Try it. For sale by most of the grocers and druggists, at wholesale by the trade generally.

An Entertainment.
A dramatic entertainment will be given at the Masonic Hall next Wednesday evening, August 3rd. "The Danger Signal," a comedy-drama, will be rendered by home talent, for the benefit of the church. No pains nor labor have been spared to make the entertainment highly interesting. In addition to the play above mentioned there will be a good farce or two, together with other interesting exercises. A large attendance is expected.

Scarlet Fever and Diphtheria
are caused by contagion, by the transfer of living matter from the skin, the membranes, linings, of the mouth, nose and throat, and from the intestines and primary organs. Disinfect thoroughly and promptly with Darby's Prophylactic fluid, the great germ destroyer. Prof. H. T. Lupton, of the Vanderbilt University, Tenn., says: "As a disinfectant and detergent Darby's Prophylactic Fluid is superior preparation with which I am acquainted."

TO THE VOTERS OF LAWRENCE COUNTY.—As the time for the August election is drawing near, making it impossible for me to see all the voters in the county before that time, I take this method of announcing to you that I am a candidate for the office of County Commissioner. Having been born and raised in this County, I assure you that I know the wants and methods of business best adapted to the promotion of the welfare of the whole people of the county as well as any man in it, and I hereby promise you if I am elected I will spare no pains to transact the business incumbent on that office to the best interest of the entire county. I remain your obedient servant,
J. F. HATTEN.

HALL'S HOW'S THIS!
We offer one hundred dollars reward for any case of catarrh that can not be cured by taking Hall's Catarrh Cure. E. J. Cheney & Co. Proprietors, Toledo, O. P. S.—Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 75cts. per bottle, sold by all Druggists.
CATARRH CURE.

BLAINE.
It has been very hot and dry for some time. A little rain in the last few days, however, has improved the prospect for crops.
Business is thriving here.
When threshing is done and the farmers are at leisure.
The oil well has quit for a time.
Next Monday is the election and we want all to come out and vote for John McDyer for Representative, and J. F. Hatten for Commissioner. Mr. Hatten is a business man and well knows the duties of Commissioner. We will elect him by a good majority. Democrats, be sure to come to the election.
As this is our first to your paper for some time I only say, send it twice a week and oblige L. D. B.

ASTONISHING SUCCESS.
It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 50,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

WEBSTERVILLE.
[Crowded out last week.]
John Murray, of Portsmouth, was here a few days ago.
Miss America Thompson, who has been ill for some time, I am sorry to say is not recovering.
John and Sim. Thompson have returned from Missouri, where they were summoned to see their father, who has been dangerously ill.
Mr. H. W. Bates and Capt. Gibbs were in this place last week.
The extension of the E. K. R. R. is progressing slowly. But fifteen or twenty laborers are employed in the work.
M. V. Prince and Mrs. Reecy Hensley were married one day last week. May happiness ever attend their footsteps through life.
Mr. Lafayette Lester cut his foot very seriously while using an ax.
LITTLE STAB.

Don't Experiment.
You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always starts at first, only a cold. Do not permit any dealer to impose you with some cheap imitation of Dr. King's New Discovery for consumption, coughs and colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all throat, lung and chest affections. Trial bottles free at R. F. Vinson's drug store.

Wayne County Teacher's Institute.

The Institute, held in Cassville, commencing June 27th, was in all respects quite a success; in some respects the best ever held in Wayne county. The attendance was the largest ever enrolled, was regular and well sustained from beginning to end.

About 160 teachers were in attendance; nearly one-half of whom were females.
The Institute was happy in the choice of Prof. Hodges, Principal of Marshall College, as instructor. Prof. Hodges is a scholar and a good Christian gentleman, a man well versed in all the modern plans and methods of instruction, and an able advocate of Temperance, and every principle of moral and social reform. He could hardly fail to leave an impression upon the minds of the numerous Teachers who enjoyed his instructions, and we may hope that as a result of the Institute the cause of sound Christian education will receive an impulse in our county.

The large proportion of female Teachers in the Institute and the county is a matter of some interest. This, in the estimation of the Superintendent, is a hopeful feature in our prospects. He inclines to the opinion that females are better adapted to the situation as teachers, and the cause of education has nothing to fear from the large accessions they are making to the ranks of the profession. The Professor is perhaps not alone in this opinion. At all events, the girl is cutting quite a figure in the schools in these times, and the interests of education are passing largely into her hands. And how they do work! The Boy will have to fall into the line of progress or stand out of the way.

So much in the way of merited commendation. Now a word or two in the way of—I will not say criticism, but I will say of suggestion. I think the Institute was possibly just a little more adjustable than was consistent with the proper design of it.

Certainly an occasional recitation or enactment of a scene is admissible, as an expedient for relieving the tedium of the session and giving variety to the exercises of the Institute; but it may be a question whether it is just the right thing for the time of the Institute to be occupied by the rehearsals of entertainments which may have been given by schools of the county, on other occasions. These rehearsals were certainly enjoyable, but possibly they were allowed to consume more of the time of the Institute than was best.

In one other respect there might have been some improvement. Truly the lectures and talks by the instructor and others were unexcep-

tional. But after all that was done and after all that could be done in a general lecture to make instructions simple, plain and practical, it is only the more appreciative that are profited. It would probably be better to organize all the teachers into classes and spend a part of the time in regular drill on the same subjects and in the same manner in which they are expected to conduct their class exercises in the school room. Such an exercise in the whole Institute, allowing no one to plead exemption, would certainly result in practical good. Altogether, the Institute was a success, and, in every way well calculated to suggest the idea of wholesome progress in the cause of common school education in Wayne county. The Superintendent is to be commended for his ability and his gentlemanly conduct in the Institute, and the teachers for their good behavior, and their unexceptional deportment while at Cassville.
We hope to see them all back again on a similar occasion.

SAVED HIS LIFE.
Mr. D. I. Wilkerson, of Horse Cave, Ky., says he was, for many years, badly afflicted with Phthisis, also Diabetes; the pains were almost unendurable and would sometimes almost throw him into convulsions. He tried Electric Bitters and got relief from first bottle and after taking six bottles was entirely cured, and gained in flesh eighteen pounds. Says he positively believes he would have died, had it not been for the relief afforded by Electric Bitters. Sold at 50 cents bottle by R. F. Vinson.

NO HOUSEHOLD SHOULD BE WITHOUT

The majority of the ills of the human body arise from a diseased Liver. Dr. J. C. Williams' Pink Pills for Pale People has been the means of restoring more people to health and happiness by giving them a healthy Liver than any other agency on earth.
